

How do I link an additional student to my user account as an observer?

If you signed up for a Canvas account as a parent and linked yourself to a student, you can add additional students to observe within the same institution.

Notes:

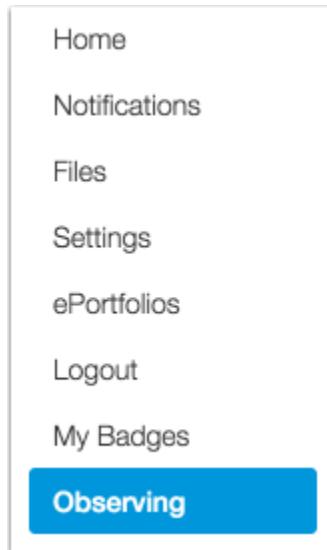

- You cannot add students whose accounts are not within the same institution (Canvas URL) as yours. To observe students in another institution, you must sign up for an account using that institution's Canvas URL.
- You can only add students to your account if you signed up for a Canvas account as a parent.
- Currently observers cannot remove the students they are observing. To remove a student, please contact the student's instructor.

Open User Settings

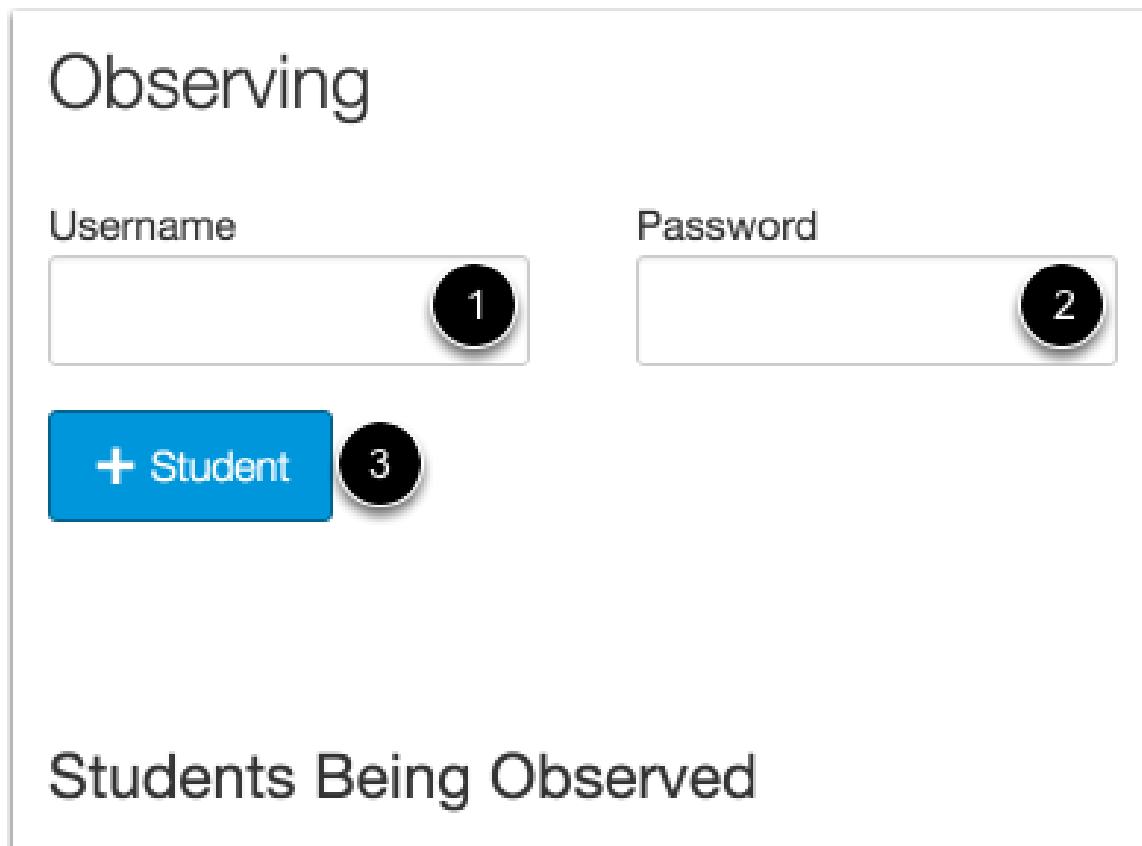

In Global Navigation, click the **Account** link [1], then click the **Settings** link [2].

Open Observing

In User Navigation, click the **Observing** link.

Add Student

A screenshot of the 'Observing' form. At the top left is the title 'Observing'. Below it are two input fields: 'Username' on the left and 'Password' on the right. Each input field has a black circle with a white number inside: '1' for the Username field and '2' for the Password field. Below the Username field is a blue button with a white plus sign and the text '+ Student', with a black circle containing the number '3' next to it. At the bottom of the form is the heading 'Students Being Observed'.

In the Username [1] and Password [2] fields, enter the student's username and password.

Click the **Add Student** button [3].
